## A Full-Service Analytical and Formulation Laboratory

With our team's combined 40+ years in the analytical field and our wide array of instrumentation, we have the capability to work out a solution to best fit your needs.

### About Analytic, LLC

Analytic, LLC is a product testing Laboratory dedicated to solving the modern-day problems of complex sample analysis through the use of state-of-the-art instrumentation combined with traditional disciplines. Our Technical Director and his staff have over 40 years of technical expertise, quality control and customer service experience. Our chemists are trained to devise specialized testing tailored to your needs and your clients' needs to ensure your product is top quality.

Our primary focus is product testing and formulation; however, we do offer field services and sampling which includes a courier service of your samples to an environmental lab for analysis.

Analytic has experience in developing methods where a method does not exist or a method has not been validated. We can take tough matrices and determine an accurate method to extract the components of interest. If you require product testing of manufactured or raw materials purchased or you need reverse engineering of a complex

mixture, the chemists at Analytic will determine if they can find you a solution. Analytic has a network of some of the most diverse contract laboratories to assist us, if necessary, to solve your problems.

## North America and International Services

Analytic Laboratories, LLC currently services clients in North America but is poised to provide analytical and consulting services internationally.

Besides our experience, we have available over \$1 million of laboratory instrumentation in our spacious 30,000 square foot laboratory.

Analytic's turnaround times vary from same day for emergency services, to 7 working days. Turnaround times are client dependent.

Our services can be ordered easily online or from our Customer Service Department.

Contact our corporate office at **(315) 437-0255**, or email us at [support@analytic.com](mailto:support@analytic.com).

Analytic, LLC is an ISO/IEC 17025:2017 accredited laboratory.
