Enalytic News

A Full-Service Analytical and Formulation Laboratory

With our team's combined experience of over 40 years in the analytical field and our wide array of instrumentation, we have the capability to work out a solution that best fits your needs.

Litigation

Enalytic professionals have been involved in many cases which involved court testimony with supporting analytical data prepared, with the specific intent to be discussed at a trial by attorneys and lay people.

One of the most difficult tasks an attorney has is making the judge and jury understand technical data. We make it our priority to produce data that is easily understandable.

We can help identify the best procedure to support your case and advise you every step of the way.

With a full-service laboratory backing you, you can be confident with your results, knowing the proper procedure was followed from start-to-finish!

Interested in learning more? Call us anytime during business hours, and your call will be picked up by a LIVE person within the first few rings.

Enalytic, LLC is an ISO/IEC 17025:2017 Accredited laboratory.
